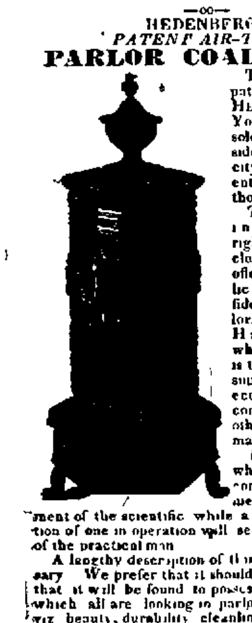
HEDENBERG'S
PATENT AIR-TIGHT
PARLOR COAL STOVE.



THIS STOVE was patented by Mr F. L. HEDENBERG, of New York, in 1845, and was sold by him to a considerable extent in that city last winter, giving entire satisfaction to those who used it.

The subscribers having purchased the right to vend the article in this city now offer them to the public with the fullest confidence that for Parlors, Chambers, Stores, Halls and Offices, where little or no pipe is to be used they are superior in point of economy, comfort and convenience, to any other Stove now in the market.

The principle on which the Stove is constructed will commend it to the judgment of the scientific while a moment's observation of one in operation will secure the admiration of the practical man.

A lengthy description of the article is unnecessary. We prefer that it should be seen, believing that it will be found to possess those qualities for which all are looking in parlor and office Stoves, viz beauty, durability, cleanliness, convenience in management, and ability to radiate the largest possible amount of heat before it passes from the stove. By a constant circulation of air in the room through the Stove (entering under the base) around the cylinder which contains the fire, the air is kept in a state of the greatest purity.

PLATT'S PATENT
GRIST MILL.

To the Citizens of the State of Maine.

THE undersigned have the pleasure of informing all mill owners, mill wrights, and every citizen in the State who has water, steam or horse power that the above Mills are now manufactured at F. Muzzy & Co's Steam Iron Works, in the city of Bangor. The great economy in erecting and putting one of these mills in operation where there is sufficient power to carry a shingle machine, or one saw, will, on examination, convince every one of the great public convenience, economy and utility of this invaluable improvement in the art of grinding all kinds of grain into the best kinds of meal and flour. The cost of the mill is but $150 all ready to run, and it can be put up in a shingle machine, clapboard machine, carding, saw or grist mill, where there is a pully or drum, to which the belt can be attached, and put in operation in two hours.

This improvement is now offered for sale on its own merits. It possesses the advantage of saving power, its cost is not one third of the large mills, its labor in a superior degree less than any other now in use, and is well adapted both to portable and stationary uses. The weight of the Mill ready to run is about 1200 pounds. The stones are of the best French Flint Burr, and do not require picking oftener than once in four or eight weeks. We are now grinding in this city, and producing as good an article of wheat flour, rye flour meal and corn meal in the same run of stones, as can be produced in any large mill in the State of Maine. As proof of this fact, we refer to the best bakers in the city, who are using it daily.

DESCRIPTION OF THE MILL.

The spindle is suspended above the upper stone or runner, by means of a hollow screw, with a connecting rod leading from it to the spindle, and is thus raised or lowered at pleasure. This Mill has not failed to operate to the entire satisfaction of all who have seen it. It took the first premium at the Fair in the city of New York, also at the Agricultural Fair in Rochester.

It is free from complication and easily kept in repair, and a boy can tend it.

The following persons can be referred to should any remain in doubt as to its durability and its perfect ability to perform all that the proprietors here set forth.

NAMES.

Wm C. Perkins Boston, Mass., Geo Peck, Fairfield, Ct., Chas Hayes Esq., Keesville N. Y., John Curtis, George Sterling and Z. Weed, Bridgeport Ct., Fresson Crofut Burlington Vt., Col. N. G. Blount Lenoir county, North Carolina, who has ordered 80 Mills.

TESTIMONIALS.

Now let us see what millers, and owners and mill rights say in regard to this invaluable improvement.

We the undersigned certify that at St. Albans Bay on the 2d day of November 1843 in the steam saw mill at that place there was ground in Platt's Portable Grist Mill fitted up in that place ten bushels of peas and oats and done in the best manner within 30 minutes, and we further certify that we believe the said mill capable of performing all the grinding usually done in a grist mill equal to any mill in this State by one run of stones.

And we further state that the said mill ground eight Bushels and a half of corn (fine meal) in an hour, without being in the least heated.

D. S. PAYNE, Miller.

Ralph Lasell,
James Lamson,
R. A. Hurlbut, } Witnesses.
Noble Square,

I, the undersigned certify that one of Platt's Portable Grist Mills has been fitted up in Messrs White & Co's grist mill at Vergennes and I will frankly say to the public that I have fully tried the mill both on flouring and provender, and have come to the full conclusion, that the above mill will compete with any mill in the country both in flouring and provender. ASA HARRINGTON, Miller.

Vergennes, April 24, 1844

The mill above named was in operation in the Vergennes Iron Company grist mill a number of days and so far as we witnessed its performance in grinding grain, we were well satisfied with it, and believe it to be a good article.

SAMUEL BARKER,
WM H. WHITE, Pres't Vergennes Bank.

This is to certify that one of Platt's Portable Grist Mills has been put in operation in the grist mill at Middlebury by the side of seven run of Burr stones, and I have given it a thorough trial, both on flour and provender and I am frank to say to the public that I am satisfied the mill will do business equal to any run of stones in the country.

M. CUNNINGHAM, Miller.

Middlebury, July 20, 1845

This is to certify that I have bought and have now in use one of Platt's Patent Mills in my grist mill, by the side of three run of 4 ft. 10 inch Burr Stones, and can frankly to the public, that it can do work as fast and as well as any other stone of the large kind, with two-thirds of the power, and verily believe they are capable of doing any and all kinds of work done in a grist mill.

LEWIS MERRITT

I would say that I tend the above mill of Mr Merritt's, and that I can testify to the above as a fact. JAMES GRAHAM, Miller.

Hartland, April 29, 1846

This may certify that I have bought and have now in use, one of Platt's Patent Grist Mills, and it works well on all kinds of grain, is run by the side of four run 4½ ft. Burr stones, and can confidently say that it will do as much work with one half the power and as well as the large stone.

DANIEL CUSHING

Springfield, May 1, 1846

The following certificates are from millers in the city of Bangor, and speak for themselves.

I hereby certify that I have tended Platt's Patent Grist Mill, so called, for Messrs Thomas & Kidd, in the steam mill of Dea Woodard, and that I am a miller by trade, and have tended mills for 30 yrs and that I have never tended any mill that will produce a better article of rye or corn meal, nor any large mill of 7 ft. stone, that would grind provender or fine meal as fast as the above mentioned mill. And I further state that I do consider it one of the most valuable improvements ever invented by man for grinding all kinds of grain in every respect,—in regard to economy in erecting a mill, saving of labor, and the small amount of power required to carry the same.

JOHN THOMPSON, Miller.

Bangor, Oct 16, 1846

To Messrs Thomas & Kidd.

Gentlemen—I take pleasure in certifying to you and to the world, that I consider Platt's Patent Grist Mill one of the most valuable improvements that has ever been got up in the art of grinding all kinds of grain. I have now been tending the above mentioned mill about six weeks, in this city, and can safely say that it produces as good an article of rye, wheat or corn meal, as any mill I have ever tended, and nearly as fast. In some kinds of grinding it will perform much more work than any large run of stone I ever have tended. It is simple and easy to tend, and not liable to get out of order. I cheerfully recommend it to persons who are going to erect grist mills in preference to the large mills, even at the same cost.

PRELATE KENDRICK, Miller.

Bangor, Oct 17, 1845

Opinions of the Press.

[From the Bangor Whig.]

PLATT'S PREMIUM PORTABLE GRIST MILL. We yesterday witnessed the operation of a mill with the above name, at the steam factory of the Messrs Dole, in this city. It was employed in grinding coarse corn meal for the woods, and turned it out in immense quantities, at the rate of between fifty and sixty bushels an hour. Fine meal, as good, Mr Gurney says, as he ever saw, is ground in this mill, at an average of ten bushels an hour. He thinks this mill has ground him several bushels of rye better than he ever had any ground. It is a very neat and compact mill, easily put up, and kept in repair at a small expense. The cost of a mill is one hundred and fifty dollars.

From what we saw of the operations of the mill—from the testimony of several competent judges, and from the quality of the several kinds of meal ground by it, we feel fully authorized to pronounce it a good machine, and of surpassing convenience, particularly in all new countries. How far it will compete with the best run of stones in the modern grist mill, we are not able to decide although from certain testimony we have seen upon this point, it will stand a good test.

The owners of the right for this State Messrs Thomas & Kidd are now in this city and we learn are about getting up a company to engage in the manufacture of these mills here.

[From the Bangor Mercury, Sept 3, 184

PLATT'S PATENT GRIST MILL. The patent for this mill has been secured about two years, and is now owned for the State of Maine, by Messrs Thomas & Kidd, of Burlington, Vt. Col Thomas, one of the owners is now in this city, with a pattern mill which has been put in operation at Dole's steam establishment on Hammond st., where the public are invited to call and see it perform.—Its gage admits of grinding grain of all kinds, both coarse and fine. We have seen some of the meal from this mill, which for cleanness and fineness is not excelled and for its capacity for grinding, it is good for cracking grain for cattle at the rate of forty bushels per hour.

The mill is portable and can be transported in a one horse wagon, set up in two hours, and put in operation by means of a belt, where there is steam, water, or horse power.

The cost of the mill ready to run, over and above the patent right, is but $150.

We have seen this mill in operation, and we know no reason to prevent its speedily coming into general use.—Heretofore it has cost a small fortune to erect a grist mill and put it into operation, and the inhabitants of many sections are obliged to travel long distances, but this patent can be put in operation for so small a sum, that neighborhoods can now have a mill of their own, and save its entire cost in one year.

We understand that a company has been or is about to be formed for the purpose of engaging in the manufacture of the mills in this city, in sufficient numbers to supply the State.

[From the Bangor Democrat.]

One of Platt's Portable Grist Mills has been in operation a few days past in the basement story of the Cabinet shop of the Messrs Dole. It makes excellent meal, grinding out ten bushels an hour and Col Thomas one of the owners of the patent right of this State, says it can crush a bushel in about one minute. The mill is compact and cheap, ($150) and those who understand such things better than we do can examine it for themselves, and determine whether it is an improvement.

[From the N. Y. Tribune.]

"EVERY MAN HIS OWN" MILLER. We spent an hour on Saturday in a visit to the manufactory of the Portable Mills for grinding grain coffee spices, salt &c., of which we have hitherto spoken. Several of the mills were put in operation by hand and steam power, converting wheat and corn into good flour and meal with satisfactory rapidity. For any new settlement—for a band of emigrants to the far west—for a plantation or neighborhood distant from mills, it seems almost indispensable. It hardly occupies more room than a chest of draws—may be put up by any ordinary mechanic in any spare room barn or wood shed, and will grind (by horse power) almost any farmer's grain with far less expense of time and team than would be required to take it to a mill two miles off. It may be propelled by water, steam, horse or hand power. Those who have experienced the delight of going ten or twenty miles to mill over bad roads and then finding the mill out of order, or choked with custom so that another day must be spent in coming, after the meal will know how to appreciate this invention. The grinding surfaces are of the best French burr stones readily picked, and put in order by almost any one. There are many neighborhoods in which it would be richly worth $1 000 to have one of them. We saw two of them put up for the California expedition.

The subscribers are now prepared to furnish Mills on above stated with the right of using the same in any town or county in the State of Maine, not already disposed of.

HINTS FOR THE WARM SEASON.

THIS wonderful compound combines MEDICAL POWERS over all other preparations ever formed for the relief of those diseases for which it is recommended, such as Headache, Dizziness, Sleepiness, Noises in the Head, Bad Taste in the Mouth, Nausea or sickness in the Stomach, Loss of Appetite, Indigestion, Dyspepsia, Fever and Ague, Pain after Eating, Sour Stomach, Heartburn, Jaundice, Costiveness, Determination of Blood to the Head, Piles, Coughs, Colds, pain in the side, back, limbs and joints, Rheumatism, all Chronic Diseases, Scrofulous Humors, Salt rheum and all Cutaneous Eruptions of the Skin, General Debility, &c.

The DANDELION AND TOMATO PANACEA is particularly recommended in cases of Indigestion and Dyspepsia. The following are some of its distressing symptoms: Palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness, &c. It will cure the worst diseases of

RHEUMATISM,

and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation. The *Dandelion and Tomato Panacea* is, as all must be aware from the ingredients of which it is compounded, the best as well as the safest

Spring and Summer Medicine

now before the public. Spring and Summer are the seasons when

Jaundice Complaints

are most prevalent. The symptoms of these complaints are

Drowsiness, Dimness of Sight, &c.

It has proved itself a most astonishing and effectual remedy for that worst of all maladies,

The Piles

because it cleanses and enables the stomach to discharge into the bowels, and causes a free circulation and regulates the whole system, and thereby prevents

Costiveness.

In cases of Costiveness, either of recent or long standing, it has proved itself effectual after all other remedies have failed.

Scrofula, or King's Evil,

and all other eruptions of the skin are caused by the impure state of the blood, and to have pure blood a medicine should be occasionally taken.—The Panacea is wonderful in its effects for purifying and

Cleansing the Blood,

and is therefore a preventive for all eruptions of the skin and will eradicate

Humors

of long standing, and in fact it is requisite for the promotion of

Sound Health

from the most exhausted constitutions.

The peculiar *alterative effects* of these Pills which no other medicine yet discovered possesses, and which fully entitle them to [illegible], render them peculiarly adapted to the above diseases and as a general

FAMILY MEDICINE.

The proprietor has received during the seven years his Pills have been before the public, more than

FIVE THOUSAND

Certificates of cures performed by them, a great proportion of them from Physicians of the first respectability in practice, who have themselves prescribed and administered the remedy after being discouraged and [illegible] by the use of the ordinary remedies of shops. Many of them are singular and anomalous cases, and all of the most obstinate and severe, having withstood the efforts of a variety of remedies for a long time. The columns of a newspaper will not allow extracts of one tenth of the certificates that may be had of the Agents containing the particulars of some of these. Suffice it here to say that they are *not made up cases* or certificates [illegible], but from persons [illegible] for respectability and integrity and who voluntarily given their testimony for the benefit of the public. Among the cures are several obstinate cases of DYSPEPSIA.

J. street Hoadley of New York city, Isaac W. Avery, Esq. of the same place, Rev. F. H. Case of Avon, Conn., John L. First, Esq. of Rochester, N. Y. have been cured by these Pills.

TUMORS, &c.

Mr Andrew Vredenburgh of Rome, N. Y. was cured of a painful and cancerous Tumor of the Breast, after having tried the prescriptions of Physicians in vain, for two years and they had decided that nothing but an operation would give any relief.

Dr John E. Latou of Brockfield, Mass. cured Mr Luther Stowell of a curious Ulcer of the Leg, of five years' standing, by the use of these Pills.

WORMS.

Dr McNab of McIndoes Falls, Vt. cured a severe case of *Tape Worm* by two boxes of the Pills. Hundreds of cases of other Worms are certified to, as cured by these Pills.

DROPSY.

Dr Jewett of Chicopee, Mass. cured a case of Dropsy considered hopeless, in forty eight hours by the Pills alone. He also used them with astonishing efficacy in

GLANDULAR OBSTRUCTIONS,

Bilious Diseases, and in Liver Complaints, and says he never saw so good a Cathartic for *FAMILY USE.*

JAUNDICE,

connected with Pain in the Side and Loss of Appetite, and Depression of Mind.

Hundreds of severe cases of this character have been communicated to the Proprietor, where the cure has been both speedy and permanent.

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs, they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character.

They embrace the views of the three great parties in England—Whig, Tory, and Radical—"Blackwood" and the "London Quarterly" are Tory; the "Edinburgh Review" Whig; and the "Westminster" Radical. The "Foreign Quarterly" is purely literary, being devoted principally to criticisms on foreign continental works.

The prices of the RE-PRINTS are less than one third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader.

To the Honorable Justices of the Supreme Judicial Court next to be holden at Bangor within and for the County of Penobscot on the fourth Tuesday of October A. D. 1846.

RESPECTFULLY represents your petitioner, ALDEN BLEN of Bangor in said county of Penobscot that he is seized in fee and as a tenant in common with certain persons all to your petitioner unknown, of one undivided half of a certain tract of land situate in said Bangor and being parts of lots numbered 144, 145 and 138 and bounded as follows to wit northerly on land of Thos Blake, westerly on lands of Henry Dutton and Samuel B. Burce, southerly on the Carmel road, so called, and easterly on land of Samuel Lowder, containing about one hundred and twenty acres—that he cannot occupy and improve the same while the same lies in common and undivided.

Wherefore your petitioner prays that notice may issue in due form of law, and that his said share may be assigned and set off to him to hold in fee and severalty.

Dr. S. O. Richardson's
CONCENTRATED
Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the law which govern the human system.

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre-eminence over all others now in use for the diseases which they profess to cure.

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels in youth, adult and declining life.

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds. Irregular Appetite, Languor, Drowsiness, Wandering Pains, Headache, Lowness of Spirits, &c.

And these in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles, Fevers, Inflammatory Humors, Colds, and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease. When used in appropriate quantity in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like, whose nature needs assistance to prevent more serious consequences, they will be scarcely felt.

On the contrary in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily until the circulating fluid becomes purified. This accomplished they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.

SATURDAY, NOVEMBER 14, 1846.

The Temperance Cause.

If the temperance reform does not make progress in Maine it will not be for the want of effective advocates. Mr Kellogg is in the Eastern section of the State, at Calais and Eastport, dealing thick and heavy blows, in his sledge-hammer and effective style Mr Hawkins is engaged in lecturing in the counties of Lincoln, Kennebec, Somerset, Franklin and Oxford —The Martha Washingtons in Portland have secured the services of Rev Mr Chapin, of Boston, for an address at a great Temperance Levee in that city The able and witty Doct Jewett, the great gun of Massachusetts, is to lecture, a portion of this month, in this city and vicinity

The first of a series of temperance meetings will be held at Market Hall, this evening, at seven o clock Good speaking and good music, are secured

---

☞In Chicago, Ill a few days since three colored men were seized by a slave hunter and without any precept or warrant were forcibly hurried to the office of a locofoco justice under the claim of their being the slaves of a man in Missouri The city was soon highly excited and thousands of people rushed to the office Counsel appeared for the colored men and labored stoutly for the right During the suspension of the trial to enable the counsel of the slave hunter to procure a copy of the laws of Missouri, some one knocked twice for admittance and as soon as the door was opened the colored men started, over coming the efforts of the officers to detain them, when a passage was opened for them through the people and which was immediately closed as they passed, and they were soon spirited away They appeared in public shortly after and returned thanks for their rescue and then disappeared A public meeting was called in the evening at which eloquent addresses were made and the affair passed off greatly in favor of the right of the oppressed

☞At the second trial to elect representatives in Newburyport Mass, a Whig having been chosen at the regular election. Caleb Cushing was chosen At the close of the town meeting, according to the Newburyport Courier, a committee was chosen to wait upon the Representatives elect, and request them to address their constituents in the evening These gentlemen consented, and the meeting took place accordingly. The hall was crowded to its utmost capacity Hon Ebenezer Bradbury first addressed the meeting, in a speech of much force, in which he avowed himself a Whig of the strictest sect, and expressed his opinions upon various questions of national and State policy in a decided but courteous manner Hon Caleb Cushing followed in a speech of equal length, in which he declined giving any indications of the course he should pursue, other than that he should seek to advance the interests of his constituents, without adhering closely to any party lines He alluded briefly to his former position to the disagreement between him and his constituents, his ostracism but without any intention he said to complain Both political parties attended the meeting.

Destitution in Scotland.

The London Times has in its employ a Commissioner in the Highlands of Scotland who states that immense destitution exists there and that the poor have been reduced to the sad extremities of existing without potatoes

Those who know and can appreciate the splendid romances of Scott, connected with the Highlands of his native country, will be pained to learn that men who can face death in every form are now reduced to the sad state of physical destitution Some of the most painful and awfully graphic sketches of character that the present generation has been conversant with may be read in the sketches of the Times commissioner

☞We have received a copy, the eighth number, of a daily paper published at Bath, entitled "Daily Northern Tribune, by Chamberlain, Haines & Plummer It is a small but neat looking sheet, and appears to be well edited Its subscription price is $4,00 a year — We shall like very well receiving a daily paper from Bath and especially if it contains local matters

The starting of a new daily paper is something of an enterprise, but of course our young friends would not embark in it without unmistakable assurances of success

He was buried under the direction of the two Lodges in Thomaston

☞The Maine Inquirer at Bath has been purchased by its editor J F Gilman, a larger paper, printed upon new type and entitled 'Eastern Times, has been issued The new paper makes a good appearance, is locofoco up to the hub, but is about the fairest paper upon that side in politics in the State.

☞The Rev Mr Jamieson who was for ten years a Missionary in Thibet preached in Dr Swift s Church, Allegheny, lately He says that the art of printing has been practised in Thibet for 3000 years They only print 300 copies a day, however, from each form—so that if they were ahead of us in type, we are ahead of them in press-work

The following *groan* says the Boston Journal is from the Buffalo Pilot, and is doubtless the commencement of a whole volley of democratic groans from all parts of the country

"Thrice has the party been thus stricken down at the moment when victory was most to be desired. We are now in a minority in the State, and it is absurd to deny that we are in a minority in the Union, since New York, Pennsylvania and Ohio have spoken. Our expectations from Michigan, which has just voted are not as cheering as we could wish"

Rail Roads in Maine.

We find in the Portland Advertiser a series of articles upon the subject of Rail Roads in Maine, which we feel a strong inclination to lay before our readers The subject is one of great importance, and as our State has but just commenced in this great enterprise, in which she is destined to excel, we think it important that all valuable information and suggestions touching the matter should be laid before the people, and receive their earnest consideration We commend to all our readers the articles referred to, and request them to read attentively the whole, and they will thus gain a knowledge of the important project of the establishment of a central trunk railroad through the State, from which various branches may lead off into all the fertile vallies and along the principal business locations

To the Editor of the Advertiser

By an editorial article in the Kennebec Journal of the 23d, and also in the Age of the same date, I perceive that the motive for the adoption of the broad gauge instead of the narrow, by the Directors of the Atlantic and St Lawrence Railroad, has been misconceived My object in addressing you is not to enter into an argument with our Kennebec friends on the question whether considering the policy and views, which prevail among them, their purposes would be best subserved by adopting this or that gauge As they are masters of their own course and are fully competent, as all will admit, to manage their own interests, I think I can say with confidence that the real friends of the Atlantic and St Lawrence Railroad have no disposition to interfere Happily they could not control them if they would, and I am sure they would not, if they could

Those, who have hitherto had the principal management of our enterprise, did not embark in it from any narrow, or local views If Portland was adopted as the Atlantic terminus, it was simply because of its position, its superior natural advantages, as a harbor, and the palpable and unmistakable indications of nature itself Their object was to open the shortest, most direct, and easiest communication between the great West and the Atlantic, and to make the State of Maine the grand thoroughfare If successful, Maine, instead of being so remote and cut off, as it were, by her geographical position, would become one of the grand resorts and centres for the commerce of the United States But the trade of the West is a prize too great, too immense in value, if I may be pardoned the expression, not to be earnestly sought for in other quarters We have rivals therefore, and formidable rivals to compete with We have the Erie canal with its Oswego branch, and the Champlain canal We have the Buffalo railroad—the contemplated Rome railroad, and the Ogdensburg railroad, the Erie railroad, the Burlington railroad, to say nothing of what some of our competitors are pleased to call the Concord and Montreal railroad

Now what should we think, what would the intelligent world think of our Augusta friends, who are about erecting their cotton and their woolen factories, if instead of availing themselves of all the improvements in machinery, which experience has suggested, and ingenuity discovered and invented, they were to furnish their mills with the machinery, which was in general use some twenty years ago? In presence of a formidable competition, they will without doubt, avail themselves of all the labor saving contrivances of the most improved construction, and this too without the slightest regard to the self interested clamour of those, who, having the old patterns in use, cannot afford to throw them away, and furnish themselves with the new The friends of the Atlantic and St Lawrence Railroad, are aware that it will not do for them to forego any of the advantages which art and ingenuity have placed in their power But absurd and preposterous, as the expectation is, in the minds of some in Kennebec, even, they have entire confidence that, availing themselves of the extraordinary facilities afforded by nature, and the improvements and contrivances of modern art, as enlightened by experience, they can command as large a share of the western trade, as the most sanguine friends of the road ever contemplated

The principal advantages, which they expect to possess in consequence of adopting the broad gauge, I will endeavor to explain in a future number, meantime to show that the friends of the enterprise at Portland and Montreal, in Maine and Canada, are not singular in their views, I take the liberty to furnish the following extract of a letter from an influential merchant and capitalist of London, to a gentleman in this city, under date of Sept 18, 1846

"Considering the important position, which this railway is to occupy in the map of the world, it is obvious, that its *capacity* should be of the highest order, and in private opinion, it will not be adequate for what will be required, unless it is constructed on a gauge of about *seven feet*"

One word more and I will trouble you no further at the present moment If the Atlantic and St Lawrence Railroad is so purely a fanciful and extravagant project, wherefore is it, that of all the enterprises, which have been laid before the public, none has met with so much opposition—so many combined and varied efforts to put it down, and crush it—so many mean and unworthy insinuations and statements intended to prejudice capitalists against it and its advocates, and condemn its friends to strive in this undertaking, single handed and alone?—Aye, wherefore is it, that, when any apparent difficulty or obstacle to the progress of the work arises, certain prominent public journals of New England parade an account of it in their columns, as among "the articles most interesting to their readers," but when the cloud breaks away, and the work progresses anew with redoubled zeal and energy the subject is permitted to pass without notice, as a matter no longer possessing any interest or deserving attention? P

☞All the writers from Washington concur in representing the Government as sick of the Mexican War,—as having "seen the elephant," and had enough of it No more volunteers, we are told, are to be called out! No more energy and invasion are prattled of in the Union!

☞The Belfast Journal undertakes to dispose of all the recent Whig victories by declaring them to have been caused by local causes If it had said loco causes, the mark would have been hit

☞The Law Reporter for November has the following "*on dit* that the distinguished commentator on American law (Chancellor Kent, father of Professor Kent,) will take up his residence at Cambridge"

A company of colored men are about to start on a musical tour as 'European Serenaders,' disguising themselves as white people. So says a New York paper

☞The N Y Supreme Court has decided that strong beer is strong and spirituous liquor, and that an action lies for vending it

[For the Whig and Courier]

Scholastikos saith to Peebles.

MR EDITOR —It seems by Thursday s Mercury, that my unpretending communication in Tuesday s Whig, has aroused the indignation of that doughty Californian, Col Peebles — (A likeness of the Col may be seen in Lewis s window, taking leave of his *gal*) The ferocious Col reminds me of the town meeting orator, who, finding that a favorite measure was to be lost through the pertinacity of a quicker witted opponent, flourished his jackknife and bawled "I m for tripe"

The head of my offending appears to be the "large black dog" Fit subject for the display of the Colonel s valor If he wields his pen so vigorously in the defence of a dog, what may we not expect from him when, upon the soil of his adopted country, he flourishes his rapier for Polk?

He complains because I assume to express the sentiments of all the young men touching the young ladies sitting without their bonnets in the Lyceum, &c, and says that he is a young man and does not "express" any such sentiments Very well, if he does not *express* such sentiments he may *entertain* them, and I can have done no great harm in expressing them for him But I assure you if I had known that the class I undertook to represent, contained one such spirit as the Col, the views of the no bonnet party would have found no expression through me I have a constitutional antipathy to being placed in any position by which I may come in contact with *unintellectual* dogs or their sympathisers

It is not to be wondered at that the Col cannot comprehend how the beautiful countenance of a young lady may furnish "food for reflection" His thoughts are too much engrossed in his "Toboso" to allow him to find "food for reflection in any thing fair As Orr said to Foote, let him 'stick to that'"

But enough, Mr Editor, I would not have occupied so much of your valuable space, had I not wanted Col Peebles to understand that Scholastikos is a man of mettle, and does not choose to acknowledge "used up by a Californian before measuring a lance with him

Kennebec Dam.

The work of preparing the dam and basin for the conveyance of water to the factory, is nearly finished The water was let into the basin on Monday, and but little more is to be done to give it a safe and permanent passage from the river to the factory We took a walk over the premises the other day, and were much interested and pleased with the strong appearance and well adapted structures that have been made during the summer

Great praise is due, not only to the proprietors, who, with indefatigable zeal and perseverance have pushed forward the work, but to the workmen, from chief engineer to hodman, for the faithful discharge of their duties The machinery in the cotton mill is nearly ready for action There is also a fine flouring mill nearly finished and the frame of an extensive machine shop going up Everything exhibits activity and prosperity Success to the owners forever and forever —Maine Farmer

Accounts in the N O Picayune from the troops on the Rio Grande are truly distressing Taylor s chaste order, tendering the officers and soldiers of his command the expression of his thanks and admiration, dated Sept 28th, was published on the 5th Oct The army was setting down inactively, waiting farther orders — A number of Mexicans had been murdered in the outskirts of Monterey by outlaws On the the 4th, the Mexican officers called on Gen Worth, to take leave of him As they were riding away through the Plaza, a volunteer shot one of them through the heart He was arrested He is in prison, and will be hung undoubtedly A sentiment seems prevalent in the army that to conquer peace, a more decisive blow must be struck at Tampico and Vera Cruz Lieut Armsted arrived at Monterey on the 12th with despatches from Washington for Gen Taylor

We find nothing in the later numbers about the departure of Santa Anna towards Monterey So far from that he was still mustering his forces for the contemplated expedition

The Diario del Gobierno says that all the rich people in Mexico would do well following Santa Anna s example—contributing liberally to the support of the war—or the mob would go where they knew the money was and take it to the soldiers who defended the country Then it adds that the clergy had consented to mortgage their property for 2,000,000, that the merchants and wealthy citizens of Mexico would deliver to the Government on the 24th of September $500,000, for the purpose of the war, that the same amount would be delivered on the 5th of Oct, and equal sums would be paid every month

Delaware Election.

Philadelphia, Nov 11—Noon

Returns coming in of the election held yesterday in Delaware From New Castle County, we have the semi official results, viz — Thorp (Loco) candidate for Governor, 61 majority, Houston, (Whig) for Congress 78 majority, Whig candidate for Sheriff, 18 majority

☞The Secretary of War has informed the Governor of Delaware that no more troops, it is believed, will be called for, sufficient being in the field for the prosecution of the war

The watchmaker and jeweller shop of Messrs Nutter & Tibbetts, in Dover, N H, was broken open on Tuesday night, and property stolen amounting to $200 and upwards

☞The School Committees of Lincoln Co made no choice of a member of the Board of Education—not a quorum of the towns being represented A candidate was nominated, however The same is true of Washington Co, where Aaron Hayden, Esq was recommended to the Board

Hon Richard H Vose has been chosen a member of the Board of Education for Kennebec county

☞Commodore John Nicholson, of the U S Navy, aged 63, died at Washington, D C, on Sunday last

Railroad from Kennebec to Franklin County.

The subject of a Railroad from some town on the Kennebec to the interior of the State, so as to connect Winthrop, Readfield and other important towns with the business of the river, has been often talked about in years past Such a work would be immensely important to the interior It would afford our neighbors to the West of us, not only the facilities of a railroad communication to Boston, but connect them in daily intercourse with all the markets on the river, and with a communication to Boston and New York, and ports further South. All the surplus produce of this fruitful section of the country could then be marked at the highest prices *by the producer*, and avoid the expense now incurred in having them pass through other hands

We are happy to learn that measures are in progress to find out the best route for such a Railroad, so that application may be made to the Legislature at the ensuing session for a charter Will our friends offer such suggestions as will facilitate the object —Ken Jour

The Sycamore or Buttonwood.

This fine tree is now suffering in the Eastern States from a blight such as it was subject to a few years since in Pennsylvania, and some persons, in despair, are cutting them down The 'Horticulturist' may confer a favor by informing its readers, that, after an attack quite as bad in our city, the trees entirely recovered, and are now as handsome and healthy as ever The only treatment necessary is pruning off the dead wood, and severely heading back the sickly branches —[Philadelphia paper

Dalley's Pain Extractor!

Every day is demonstrating the matchless virtues of this article Letters are coming to us from all parts of the Union, expressing gratitude and surprise at its wonderful healing properties in all cases of Burns, Rheums, Piles, Wounds, &c &c. The press abounds in notices of its high character as a standard medicine, and we select the following from the Island City of the 12th inst

DALLEY'S PAIN EXTRACTOR.—An invention like this truly wonderful article, so full of virtues, should be made known to the universe Its cures in many cases seem absolutely beyond belief For burns and scalds, sores, swellings pains in the limbs of all kinds, cuts, wounds, and in every disease of the skin or body where it can be applied externally, it never fails to cure A singular case came under our own observation. A friend in playing with a sharp steel pen, run it into the palm of his hand, so that it came out at the back, and had to be extracted that way The poisonous nature of the ink in the wound, as well as the instrument itself, caused the hand to swell dreadfully Dalley's Pain Extractor was applied, and the next day the swelling had entirely gone down, the pain had left, and the wound was cured in a few days This we can give personal proof of if required It is sold at 208 Broadway

☞Important Caution!—Counterfeits of my Extractor are unblushingly published to the world under my name Protect yourself, as you value life and health, from these base deceptions I am (as every Druggist in the Union knows,) the sole Inventor and Proprietor of Dalley's Magical Pain Extractor, no other being has ever made or can ever make a grain of it, for no man living has the secret of its preparation but myself The only *genuine* has my written signature on each label, and is sold by myself at No 208 Broadway Pamphlets, with numerous certificates furnished at the store *gratis* H DALLEY

Reason and Justice.--No. 8.

In previous numbers we have looked at the proposed law for the prevention of imposition in the sale of medicine, in nearly all its bearings There is one more view to be taken and then we shall have done Let us look for a moment at the circumstances which call proprietary medicines into being Independently of the discovery the result of long and laborious research, the public at large are not a little interested in their success Thousands are scattered over a wide extent of country, exposed to the hazardous influences of occupation or climate, to whom a valuable prepared medicine is a necessary of life. Far removed from professional aid, or accessible only at considerable time and cost, these medicines proffer their healing services when none other are to be had, and often where a professional man, in such could never be sustained In cities and villages, too, there are other thousands who live by toil and are subject to the worst influences of a more pent up life, to whom a good prepared medicine is not less essential— Stinted in means, they can have their cases addressed and cured, when otherwise they would be likely to linger until entirely beyond remedy The notorious fact that physicians are seldom called till severe sickness supervenes, is enough to show the real utility of a good preventative remedy It is the *poor man* who is subject to the greatest amount of bodily infirmity, and it is he on whom the operation of the above law will most heavily fall

His only resource is to buy a quantity of Wright's Indian Vegetable Pills while he can, in his own State and when he cannot buy in other States In this way will the evils of the iniquitous law be mitigated, until it is repealed

NOTICE.

☞ The present limits are inadequate to accommodate my numerous retinue of customers On 1st of February next, I shall commence to erect a '*Stupendous Warehouse*' sufficiently large to accommodate my friends and numerous customers "*Large* as the present House, it is not sufficiently *large*" "*Spacious* it is not sufficiently *spacious*" "*Brilliant* in appearance, it is not sufficiently *brilliant*" This Giant House, *the Glory of Boston* is to come down and a *Larger* more *Spacious* and *Brilliant Establishment* is to take its place The names I have been applied to my establishment by those that are acquainted with the real character of Oak Hall — such as "*a Superior Mart*," "*a Princely Warehouse*" "*a Vast Trade and Area*" "*a Matchless Establishment*," "*a Theatre of Unbounded Trade*" "*a Stupendous Scheme*" "*a Fashionable Market*," "*a Triumphant Achievement*" "*a sphere of Extraordinary Operations*" "*an Unapproachable Wonder*" Such names probably will apply to my new *construction* when completed, I might as well undertake to confine the vast ocean in the limits of our Pond on Boston Common, as to carry on my *large* trade within the walls of these present limits The public are aware that my triumphant statements are not overrated The trade at my extensive Ware rooms may be compared to a large Monster, whose bulk and mighty stature have become so great that it requires a larger sphere for its present movements— This Warehouse, erected in 1842 has stood unrivalled in the metropolis for extent and magnitude, and yet it is far, far from being equal to the extent of my heavy trading operations So liberal a patronage must have a larger house for the unfettered movements of its enormous frame —an establishment far surpassing the present one is absolutely necessary and one is shortly to be erected that will surprise and delight all interested in my welfare

Mr Fowle

Dear Sir—Having been troubled about four years with pain in the side and stomach, and after trying various remedies but to no effect, I tried the Balsam of Wild Cherry, which gave me immediate relief, and I can hereby assure the public, that in my opinion it is the best medicine for Lung and Consumptive complaints which has ever been introduced to the public, and I judge from my own experience J A TOOMIS

TIMBEY'S PATENT CAST-IRON

Water-Wheels.

Notice to Mill Owners.

THE undersigned having purchased of Theodore Timbey of New York the original inventor the Patent Right of the above celebrated Wheels for the State of Maine, now offers them for sale and confidently recommends them as possessing more advantages than any other Wheels for Saw Mills, which are offered for sale in this State Besides its great power and speed and its capacity of running under very light heads of water and not being effected by back water it has but two rests for each Wheel which will allow all drift stuff which is liable to get into the flooms to escape without filling them up

It is now acknowledged by the most experienced and skilful mill wrights and mill men that these Wheels excel for Saw Mills any other Wheels known, and he refers to those which are now in operation in this vicinity, and more particularly to those now running in the mills in Upper Stillwater side by side with the *celebrated* Stearns Wheels, to prove that they surpass any other Wheels now in operation in this State

These Wheels are now manufactured by Messrs HINCKLEY & EGERY of this city who are authorised to dispose of the same with the Patent Right thereof, on the most reasonable terms

TO MILL OWNERS.

THE undersigned would inform all those interested in Mills for the manufacture of Lumber that he is owner of the Patent Right, for this State, of the celebrated

Stearn's Water-Wheel.

This wheel is now offered to the public with the fullest assurance that it is unsurpassed by any wheel now in use in this State

The peculiar form and construction of this wheel is such that it exerts the full power of the water, runs with the least friction possible, combines great power and speed, is well adapted for low heads and back water, and is not liable to obstruction by drift stuff having but few (three to six) apertures

About fifty sets of these wheels are now running on the Penobscot waters, and have been thoroughly tested It is now given up by the most skilful and experienced millwrights and millmen, that they excel any wheel in use

These wheels are manufactured and for sale by FRANKLIN MUZZY & CO, BANGOR who are furnished with patterns for all the different sizes, and are authorized to contract for the Right of use, or Patent SAMUEL VEAZIE

The Trojan Pioneer Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection, and are now prepared to furnish the public with the very best article ever invented This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove, at the Fair of the American Institute in the City of New York a Silver Medal was awarded, at the great State Fair at Poughkeepsie, N Y 1844, where was the greatest competition ever known the first premium was awarded to it and lastly at the Exhibition and Fair in Boston a Silver Medal was awarded to it This celebrated Stove stands unrivalled in Boston New York and other places where it is in extensive use, 1800 of them were retailed by one establishment in Boston the past year, for all cooking and heating purposes it far surpasses any other Cooking Apparatus that can be produced The oven is extremely large being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time In addition to the advantages it has over other Stoves for boiling baking washing frying heating irons, &c, it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam (from all the cooking) being carried off effectually This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the setting or dining room—and the other part in the back kitchen for Boiling or Washing, and in the fall of the year the two parts may be connected together as is represented above In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves Ranges, Hot Air Furnaces and Fixtures, Tin Ware Sheet Lead, Pump Lead Pipe, Fire Frames, &c

Instruction in French.

MADEMOISELLE MYHAN respectfully announces to the Ladies and Gentlemen of Bangor that she is prepared to receive applications for her services as teacher of the French language at Mr VALENTINE on Hammond street

Mlle M flatters herself that a continued residence for some years at the celebrated establishment of the *Sacre Coeur*, at Paris where no other language than French was used either in hours of study or relaxation will be a sufficient guarantee for her of the possession of a *pure Parisian accent*

For her knowledge of the language skill in teaching and success with pupils she invites an inspection of her references in Boston &c

As Mlle M has under consideration several eligible applications from other quarters she would be particularly obliged to those who may desire to avail themselves of her services in Bangor if they would apply as early as possible She would be glad to be enabled to decide by the 10th proximo whether it is practicable for her to make permanent arrangements at Bangor

She is permitted to refer to Messrs FREDERICK HOBBS and GEO B MOODY [oct 26

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM. OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled [illegible] as the most pleasant, agreeable and effectual curative of these formidable complaints, now known to the civilized world.

Three years of trial in the United States, [illegible] which time it has been distributed [illegible], has only served to establish its pre-eminent merits to all parts [illegible] ONLY RELIABLE REMEDY in the worst cases of Pulmonary disease, [illegible] and most [illegible] colds, cough and inflammation, that can possibly be used.

SPITTING OF BLOOD. It is the first fatal symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam which heals the [illegible], removes [illegible] prevent tubercles and restores the vital organs, the lungs to a sound and healthy condition.

REMEMBER THIS, Spitting [illegible] from a tender [illegible] checked, at the outset, will sooner or later [illegible] in death. A person who [illegible] blood again, or use a proper curative is [illegible] employed!

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs [illegible] the Membranes called the Pleura or [illegible] affection of the [illegible]. In either case it is very dangerous in the [illegible]. It prevents full and free breathing and [illegible] of the system. [illegible] nothing [illegible] removed [illegible] object so speedily [illegible] Remedy, discovered by Dr Buchan, [illegible] vegetable in its ingredients, and perfectly harmless in all its qualities.

LIVER COMPLAINT. In case of Consumption the Liver is always more or less affected, and [illegible] Spleen, Pleura, [illegible]. Consumptive patients, tubercles are often found in these organs particularly upon the Liver, which [illegible] becomes fatty, only and swelled. The effect of the Hungarian Balsam in diseases of the Liver, speedily [illegible] of an ulcerous nature, is direct and powerful. Simple disease of the Liver, unattended by Consumption, is speedily cured by its use.

WINTER COUGH. The harsh, dry, hacking, winter cough which afflicts old people and invalids in a low state of health is happily affected by the Hungarian Balsam.

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid mucus and other foul matter, purifies and animates the blood, improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs and imparts new life to the wan and emaciated system.

BRONCHITIS. Bronchitis, Difficulty of Breathing, Harsh Cough, a slimy expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs are directly and specifically cured by the use of the admirable remedy [illegible] ed by Dr Buchan.

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease. Be warned in time, ye afflicted! and employ this valuable remedy.

TUBERCLES ON THE LUNGS. The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease, that he prefers (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE!* by the most eminent physicians, rather than by persons [illegible] with some slighter form of disease—in order that its triumphs might be more [illegible]. He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*.

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure the diseases of the Chest and Lungs. The Cough, which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off this matter, and expectoration gives great relief. Inability to expectorate, in the latter stages of Consumption is the cause of death.

The Hungarian Balsam is a *Great Expectorant*—It dissolves the mucus [illegible] diseased matter in the air passage, clinging [illegible] from a thick, glutinous substance to a [illegible] and throws it off with the greatest possible ease and comfort to the patient. The best expectorant medicine in the world, if its expectorant qualities alone be considered!

SPASMODIC ASTHMA! Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease.

CONSUMPTION! Consumption has been graphically described as *a [illegible]*. The Hungarian Balsam by its cleansing, warming, softening and animating power produces, not shrinking but *expansion*.

Before its delightful influence all chills, fever, night sweats, costiveness, blueness of the nails and hot flushed skin, pain, ulceration, strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion, but demonstrable fact sustained by incontestible proof from all parts of the country.

BE WISE TO-DAY! Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles at only one dollar per bottle.

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly, from a morbid state of the system, caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS. The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, N York.—Price 25 cents a single box, 5 boxes for one dollar.

G W LADD, Agent for Bangor.

Among the numerous remedies which stand reputable on the basis of an ancient fame, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article.—They have gained their high reputation, alone by their good works. Those who once try them always use them again. They are grateful to the stomach,—they improve the functions of secretion, nutrition and circulation. They restore digestion and appetite and create a natural warmth [illegible], which glows through the whole system, giving it greater vitality and animation. The experience of thousands attest to their good effects. After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system. His digestive organs perform their proper functions; his blood regains its wonted purity; the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and [illegible]. Such are the results produced by Halsey's Sugar coated Pills, the mildest, yet most effectual preparation of the class in use.

[illegible] complaints, Costiveness, Indigestion, Dyspepsia, and all other disorders of the stomach they produce the most happy results. For Sores, Boils, Saltrheum, Tetter, Erysipelas, Eruption of the Skin, Scrofulous complaints, and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated. Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the [illegible]) [illegible] of the most [illegible] *scrofulous* [illegible]. They are *Good Blood for Bad* [illegible] of the boasted Sarsaparilla contain less of the real virtue of that valuable plant and are less effectual than a single box of these extraordinary Pills. In Colds, Coughs, Influenza, Sore Throat, Headache, Giddiness, &c, they are recommended with entire confidence, the relief in these cases is quick and permanent. For Fever and Ague, Fevers, Asthma, Piles, Loss of Appetite, Dropsy, Jaundice, Worms, Looseness, General Debility, and [illegible] of the various other diseases to which the human system is liable they have proved [illegible]. Their action on the bowels is of the mildest character, even *[illegible]* never cause griping or unpleasantness, yet they are searching [illegible]. It is impossible by words to give an adequate idea of the great and good effects these pills produce at [illegible] over every other remedy [illegible] explain the whole [illegible]. The unhappy invalid after having *tasted* but [illegible] of them will witness the [illegible] change wrought in his [illegible] to their uncommon virtues.

N B. The [illegible] is nothing to the great virtues of the Magic Life Pills, it is their uncommon power in promoting health [illegible] which all their merits stand, in truth [illegible] the original sugar coated pills. The proprietor [illegible] improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills, coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills*. In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box and buy only of advertised agents.

F. BROWN'S SARSAPARILLA AND TOMATO BITTERS

THESE excellent Bitters will be found a certain cure in all cases of Indigestion or Dyspepsia, Jaundice, Loss of Appetite, General Debility, Faintness and sinking of the Stomach, Lowness of Spirits, Costiveness, Determination of Blood to the Head, Pain in the Limbs and Side, Diarrhea, Weakness, Dizziness, Cutaneous Eruptions on the Face and neck, fever, night sweats, nervous and sick headache, Acidity of Stomach, bilious affections, piles, costiveness and in all diseases caused by impurity of the blood, the debility of the system or the unhealthy state of the stomach and bowels.

They are also exceedingly efficacious in restoring constitutions broken down by sedentary employments and have been extensively used by Clergymen, Editors, Printers, Clerks, Seamstresses and numerous others whose health had been injured by confinement and close application, with the happiest results.

They restore the action of the stomach, increase the quantity of the blood and impart to the wan and emaciated system of the invalid the vigor and glow of true health.

These Bitters are warranted to be a purely Vegetable compound—and mark this, they can never do the least injury in any case whatever.

They are kept by many persons as a FAMILY MEDICINE, and have been given to the *[illegible]*, on account of the mildness of their operation and excellent effects.

Be sure and always ask for Brown's as there are imitations and counterfeit articles sold which are no more like the genuine (which is prepared by Frederick Brown) than cold water.

Address all orders to F. Brown, the Proprietor, No 86 Washington st. Boston.

Price, $1 a bottle, or 6 for $5.

LORRAINE'S PILLS.

THESE Pills are now acknowledged by thousands that use them daily, to be the only medicine that fairly takes the BANNER from all others. They cause no pain or uneasiness of any kind in their operation and require neither change of diet nor care of any kind. This medicine has actually done wonders. It has established a reputation unrivalled, on its own merits, without being puffed up continually in the papers.

The attention of the reader is respectfully called to the following highly respectable notices of this invaluable and incomparable medicine—and it will be seen its achievements are most extraordinary, as daily experience speaks more and more remarkable cures, where other medicines had entirely failed of giving even relief.

COUGHS, COLDS AND CONSUMPTION. A gentleman of Boston, was so much afflicted with hoarseness that he could not speak loud, took Lorraine's Pills. They had an excellent effect, and rendered his voice soft, clear, and distinct in one night's time.

PILES! PILES!! PILES!!! The only sure remedy for the Piles is

DR LORRAINE'S PILLS.

Never in one single instance has failed to cure that worst of all diseases. Certificates from the most respectable people of Boston, can be seen at his office.

VERY REMARKABLE CASES!

John Bruce of Providence had entirely lost the sight of one eye, and nearly so the other from inflammation, was entirely cured and his eye sight perfectly restored by a steady use of Lorraine's Pills for one month. The certificate is in the hands of the General Agent, signed by three respectable witnesses.

Mr J Greenwood has been entirely cured of a very large sore on his leg, by the use of only two boxes of Lorraine's Pills.

SHE WAS POINTED AT!!

She was pointed at, in Washington street Boston saying that is she! That's the lady that was so weak and sick and given over to *die!* and was *cured* even to admiration, by Lorraine's Pills! in so much that when she goes to church, or to walk in the street she is actually pointed at,

THAT IS SHE!

DANCED IN FANEUIL HALL!

A lady in November 1844, commenced the use of Lorraine's Pills with all the frightful symptoms of death upon her, visible in the ghostly countenance accompanied with Despondency, Sighing, Fainting, Convulsions, &c, yet by the powerful virtues of only one of Lorraine's Pills, daily, in the space of six weeks she acquired such a stomach, such a constitution! that she Danced in the Faneuil Hall in Boston.

CAN YOU EAT OYSTERS?

One doctor asks his patients can you eat oysters, &c, another can you drink milk! &c. Now we tell you if you take but one of Lorraine's Pills daily you can eat any thing and acquire a constitution, fit for all occasions and comforts and pleasures.

Mrs ——, of Salem, was afflicted with a cancerous humor that settled in her breast took Lorraine's Pills and was entirely cured.

Mrs ——, of Boston, was dreadfully afflicted with sore Nipples on account of a humor of the blood, took one of Lorraine's Pills every night with a view to cleanse her blood, which entirely cured her.

Dyspepsia—Mrs Susan Bond, Pearl-street N York, has effectually cured of Dyspepsia by taking only one of Lorraine's Pills on going to bed, for eight days.

Nervous or Sick Headache—Lady Smith 109 [illegible] st N Y was entirely cured of a severe nervous or sick headache, by taking three of Lorraine's Pills.

Palpitation of the Heart—Mrs E West, Green wich street, N York, was entirely cured of a violent Palpitation of the Heart by a steady use of one of Lorraine's Pills every night for one week.

Worms—Mr Loring Grey of N York cured three of his children of Worms, by giving them one pill each for three days.

Opinion of a Regular Physician.

Exeter, Me, Sept 30 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

NO QUACKERY! NO DECEPTION!

All published statements of cures performed by this medicine are in every respect TRUE.

BEWARE OF COUNTERFEITS AND IMITATIONS. The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

READ THIS!

FOR MAN AND BEAST.

DR KITTREDGE'S Green Nerve and Bone Ointment discovered and used by the late Dr Kittredge of Walpole, N H with the most unparalleled success, is now prepared by Geo C Goodwin, Druggist, 76 Union street Boston, from the Original Receipt, and is confidently recommended to the public for the cure of the following diseases incident to the human frame.

Rheumatism, Lameness, Sprains, Gout, Salt Rheum, Scrofula, Piles, Humors, Contractions, and all external complaints. It is also equally celebrated in the cure of the following external diseases of Horses and Cattle—Sprains, Galls, Cuts, Scratches, Bruises, Whirlbone, Farten, Cough, Stiff Joint, Film in the Eye, &c.

Numerous certificates might be produced attesting to its inestimable virtues, and the public may rest assured that this ointment is superior to any remedy ever invented for the cure of the above named diseases, and unlike too many highly extolled medicines.

It is no humbug, in proof of which the proprietor will himself, and hereby authorizes his Agents in all cases to refund the money, where it does not give the most unbounded satisfaction.

MORE PROOFS!

"The cry is still, they come!"

EVERY mail brings tidings of their success—From East to the remotest West—from Canada on the North to Mexico and the West Indies on the South—all are unanimous in their praise—Of a medicine so universally known and esteemed as

WRIGHT'S INDIAN VEGETABLE PILLS,

It is hardly necessary to speak in detail. At no period in its history has the reputation of that medicine stood higher and we may say that no reputation is likely to be more enduring. Adapted to all constitutions, to every form of disease, and to all climates, Wright's Indian Vegetable Pills are above every other medicine, fitted for the use of man under whatever circumstances he may be placed. At sea or on land, at home or abroad, in summer's heat and winter's cold, with a common regard to the conditions of health and with Wright's Indian Vegetable Pills at hand, there is no excuse for being sick unless the constitution be utterly irreclaimable.

As our object is to state where the genuine medicine can be obtained, rather than to give it an extended notice, which our limits forbid, we shall merely subjoin one or two of the numerous testimonials that have just come to hand. Hundreds of the same kind might be added, but we are sure the public will save us the trouble of arranging them.

[Extract of a letter from Hernando Mississippi.

"To W Wright—Your Pills have given universal satisfaction and are justly very popular. I can sell from 30 to 40 dozen annually, if I could be supplied. Yours,
WM HENRY JOHNSON, Agent."

It ought here to be remarked that the medicine has been but recently introduced into Mississippi.

[Extract of a letter from Jersey Shore, Penn.]

"The Indian Vegetable Pills excel every thing of the kind ever offered to the public in this section of the country, notwithstanding the combined efforts of some few unprincipled mercenaries to put them down.   S WINCHESTER & SON.

SPECIAL NOTICE.

In consequence of the passage of an act by the recent Legislature of Maine, unjustly requiring the publication of the recipes of all proprietary medicines, after the first of January next, the public would do well to PURCHASE IMMEDIATELY AN AMPLE SUPPLY of the above celebrated medicine as it MAY NOT BE LONG that the opportunity will be afforded in the State of Maine—The sinister intentions of designing men will thus for a time be defeated. The medicine if kept dry, will be good for years. That act we pronounce most *unjust*, because it requires a valuable secret to be put into the hands of one's *professional enemies*. This no one will do, and thus the poor man will be compelled to pay for the visits of a doctor instead of doctoring himself as he now does at a small expense.

Genuine Vegetable Universal Pills.

THESE pills are an effectual assistant of nature, having the same kind of action in the human body that storms and hurricanes have upon the air, or that the tides have upon the ocean, they purify. What so judicious as the copying Nature. We see, when she wishes to become purified, that she puts herself in commotion, which has the purifying effect. And so, we to induce purity in our bodies bring about a natural commotion by artificial means, and experience has taught those who have adopted this course, and who for this purpose have used these pills, that they were in the right, because the result has been sound health, or in other words, every organ has been restored to a state of purity consistent with its functions and although there are many whose bodies are in such a state of debility and suffering and in whom there is such a predisposition for decay that all which can reasonably be expected is temporary relief, nevertheless, many persons who have commenced with them under the most trying circumstances of bodily affliction, when every other means and medicine have proved altogether unavailing, have been restored to health and happiness from their use, and the consequence is, they are now recommended by thousands of persons whom they have cured of consumption, influenza, colds, indigestion, dyspepsia, headache and a sense of fulness in the back part of the head, usually the symptoms of apoplexy, jaundice, fever and ague, bilious, scarlet, yellow, and common fevers of all kinds, asthma, gout, rheumatism, ulcers on the [illegible], liver complaint, pleurisy, inward weakness, depression of the spirits, ruptures, inflammation, sore eyes, fits, palsy, dropsy, small pox, measles, croup, coughs, whooping cough, quinsy, cholic, cholera morbus, gravel, worms, dysentery, deafness, ringing noises in the head, king's evil, scrofula, erysipelas, St Anthony's fire, salt rheum, white swellings, ulcers, some of thirty year's standing, cancers, bunions, swelled feet and legs, piles, costiveness, all eruptions of the skin, frightful dreams, female complaints of every kind, especially obstructions, relaxations &c &c.

GREAT IMPROVEMENT IN

Hot-Air Furnaces,

COOKING RANGES, -AND- STOVES.

GENTLEMEN wishing to obtain the best FURNACE in the United States, will please call and examine my extensive assortment, which cannot be equalled elsewhere. The important improvements in these Furnaces over other kinds in producing the largest amount of pure, wholesome air, has resulted in their being very extensively introduced in this and other cities, of sizes adapted to all classes of buildings.

Personal attention given to the erection of Furnaces in Dwellings, Churches &c. References as to their perfect operation given to any extent that may be required, from gentlemen of the first respectability in the city and vicinity.

Also, the largest and best assortment of

COOKING RANGES

that can be found in any one establishment, including Beebe's celebrated NEW-YORK RANGE, some of which are of large size for Hotels.

Also, just received by the Ship Affghan, from the New York Foundries—made of the best of SALISBURY PIG and VERMONT IRON,

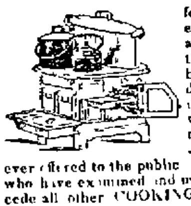
THE AMERICAN AIR-TIGHT COOKING-STOVE.



PIERCE'S PATENT, four sizes. All purchasers of Stoves be sure and examine this invention. The subscriber has the utmost confidence in its superior merit, believing it to be without exception, the most perfect convenient and economical Stove ever offered to the public. It is the opinion of all who have examined and used it that it will supercede all other COOKING STOVES in use. It has more actual improvements and necessary conveniences about it than can well be described here, a few among the many are such as having the top of the oven fire brick which gives it all the advantages of a brick oven, the bread will rise and bake light as the steam is absorbed into the brick; this improvement is of great importance. The facilities for roasting in front, with a tin oven, are unsurpassed, the hearth, or summer arrangement for broiling, boiling, &c &c, with hard coal, charcoal or wood, is an admirable arrangement. The grate clears itself discharging the ashes into the ash pit, the flues are so arranged as not to fill up with ashes, the Stove has a large oven and six boilers.

Just received GRATES and STOVES for Coal, new and elegant patterns—and AIR-TIGHT STOVES of every description.

NOW TO THE TESTIMONY.

PREJUDICE however deep rooted and long standing must yield to simple, ungarnished statements of fact, like the following.—Captain Thompson is well known in this city and in many parts of this State, and his statements are highly important. Read them.

BANGOR, May 18 1846

I have been very severely afflicted with a distressing cough, attended with asthma. For thirty years especially during the winter season, for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit. During the fore part of last winter I was much worse than usual—very much worn down with my cough, and emaciated so that I was unable to attend to business. I felt discouraged and began to conclude with my friends that my case was a hopeless one. Whilst in this situation a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam, and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO of this city, saying he had made use of them in a case very similar and had been cured. I had little or no confidence in any patent medicines having tried many and found no relief and objected sending for them for some time. At the earnest solicitation of several who declared they had found relief from them, I purchased a bottle of the Balsam and a box of the Pills. Very soon after I commenced using them, was relieved from the distress at my lungs, my cough became loose, and I raised easy. Soon after my cough began to disappear and in less than a month it was perfectly well. My lungs now appear perfectly well, and have been so for months. I believe the Balsam and Pills SAVED MY LIFE. I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough. I do most cheerfully recommend it to the public believing it the *best article in the world* for all lung complaints, asthma, &c.   JOHN THOMPSON.

The Balsam and Pills are sold wholesale and retail by CURTIS & PERKINS No 4 Strickland's Block, West End Kenduskeag Bridge, Bangor; Also, by D BUGBEE, and Druggists generally in this city.   3m   june 20

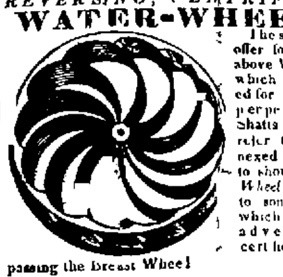
VALENTINE'S PATENT REVERSING, CENTRIFUGAL WATER-WHEEL.



The subscriber offer for sale the above WHEELS, which are intended for upright or perpendicular Shafts and they refer to the annexed certificates to show *that this Wheel is superior* to some Wheels which have been advertised and certified as surpassing the Breast Wheel.

Saugus, March 26 1845

Mr J Whitney—Sir—Your letter of the 24th instant I have received, inquiring as to the operation of Valentine's Vertical, Centrifugal Water Wheel, now in use in the Tide Mills at Saugus.

It certainly gives me great pleasure to give credit, where I think credit is justly due. I exchanged last November, as you know, one of the old fashioned tub wheels for one of Valentine's, and after four months' use of the same I must say that it is one of the best wheels I ever saw.

In the same Mills, at the same time, one of the Howd wheels was put in operation, but with all the commendation that the Howd Wheel has and indeed is worthy of, I must give the Valentine Wheel greatly the preference, and for these reasons—it costs far less, it vents less water, is less liable to damage, will run more hours and with less head and is capable of doing more business.

The Valentine Wheel as near as I can calculate, vents three fifths as much water as the Howd.

Since the above wheel has been in operation I have seen ground into good meal forty bushels of corn per hour, with one run of stones.

Yours, with respect
BENJ F NEWHALL

I have been engaged as Miller to the Tide Mills aforesaid for eighteen years and I fully concur in the statements made by Mr Newhall.
ISAAC COLLINS.

Portland, March 17, 1845

Mr Samuel Waite—Sir—We have to say to you and through you to Messrs Hinckley & Egery, Manufacturers of Bangor, that the Valentine Wheel exceeds in power and general excellence any previous expectations we were willing to conceive of it, from your representations, before we tried it in our new Paper Mill. The 5½ feet diameter wheel, with our head of water, which is 14 feet, moves our four engines which are of the largest size with the theoretical discharge of 220 square inches of water.

In short we most heartily recommend the Valentine Water Wheel as possessing or combining more of the requisite qualities of the very best Water Wheel, than any other known to us. We invite those interested in the matter to visit our new Paper Mill at Cogin, five miles from Portland Me.

Respectfully yours,
DAY & LYON

VALENTINE'S WATER-WHEEL.
[To the Editor of the Whig and Courier.]

[illegible] Mills April 23 1846

I have lately purchased of Messrs Hinckley & Egery one of Valentine's Patent Reacting Water Wheels, which has been put in operation by Mr David M'Clench, an experienced Millwright of this town, for propelling machinery in the Woollen Factory. The wheel so far excels our expectation that I consider it an act of justice to the proprietors to recommend the Wheel to persons building Factories or other Mills as being superior to any other Wheel with which I am acquainted. The Wheel is 6 feet in diameter and the head of water is [illegible] feet. This drives one set of Woollen Machinery with fulling mill and picker. The power is very nearly three times as much power as the 11 feet Tub Wheel which we have used heretofore. The Wheel is not obstructed by back water, and goes sufficiently steady without the aid of a regulator.—Persons interested in Water Wheels are invited to call at the Factory and examine for themselves.
J W CUSHING

The undersigned confidentially recommend this Wheel to the owners and operators of Manufactories, Mills, and Machinery, as excelling any Wheel in use, for power, durability, simplicity and economy.   HINCKLEY & EGERY

To the Honorable Justices of the Supreme Judicial Court next to be holden at Machias, within and for the counties of Washington and Aroostook, on the second Tuesday of July in the year of our Lord one thousand, eight hundred and forty six.

HANNAH FAIRBANKS, wife of Dennis Fairbanks, of township letter F, in the Presque Isle plantation, in the county of Aroostook, respectfully libels and gives this honorable Court to be informed that she was lawfully married to the said Dennis, at Winthrop, in the county of Kennebec, on the twenty sixth day of February, in the year of our Lord one thousand, eight hundred and nine, and has had by him six children, all of whom are now living.

That your libelant hath always since her intermarriage with said Dennis, conducted herself as a chaste, affectionate and faithful wife, [illegible] said Dennis, regarding his marriage vows and duties, [illegible] said marriage, on or about the fifteenth day of September, in the year of our Lord one thousand, eight hundred and thirty two, and divers other days and times between said fifteenth day of September, and the present time has been guilty of extreme cruelty toward your said libelant—that he has repeatedly struck and knocked her down with his fist—has beaten her in the face—has kicked and choked her so that your libelant has been seriously injured by reason of said blows and kicks.

That she has been confined to her bed more than once on account of the violence and injuries inflicted upon her by said Dennis.

That she is afraid to live with said Dennis—that he has frequently within the last year, threatened to kill her—and your said libelant firmly believes, that if compelled to live with said Dennis, she has no security for life or limb.

That said Dennis had real estate to the value of ten hundred dollars, and personal estate to the value of two hundred dollars, which he received by reason of said marriage—that he has other real and personal estate to the amount of one thousand dollars in letter F, where he now lives, all which said estate (real and personal) she prays may be bound to answer the order and judgement of Court.

Wherefore your libelant prays that for reason of extreme cruelty and abuse, a divorce from bed and board may be granted her from said Dennis, under the provisions of chapter 89, Revised Statutes.

That the value of said estate real and personal which said Dennis received by reason of said marriage, may be restored to her, and that such other provision be made for her out of the estate of said Dennis, as this honorable Court may consider just.

And as in duty bound, will ever pray.

Dated and signed at Presque Isle, this tenth day of March, 1846.
